Consultative Selling and Negotiations

WSIA joins with Richardson, a global sales training and performance company, to produce Consultative Selling and Negotiations. This two-day program focuses on expectations in transactional relationships, styles of selling and negotiating, and offers insight into individual strategies and habits.

This program is not about hard sales tactics. It prepares you to develop relationships which puts the focus on your customer rather than you; strong relationships are based on continuous transactions rather than a single point in time.

WHO should attend

All brokers, managing general agents and underwriters who transact business. This program is most beneficial to those E&S professionals who have relationships with clients. They will gain a greater understanding of clients' needs and perspectives in a sales and negotiation process.
