

What Past Participants Say

“The WSIA Underwriting Boot Camp has been a tremendous help. One of the takeaways was the amount of knowledge the instructors had. They were able to really define and get down to the nitty-gritty details and provide that information to us. There were a lot of what-if questions, and we worked together along as a group.” **– KYLE BOLLS S/L STAMPING OFFICE OF TX**

“The biggest takeaway is learning that every industry goes through the same scenarios and problems and learning how to apply those examples to my experiences in my everyday job. Don’t be afraid to throw yourself out there to ask questions or meet new people. Everything that has been laid out for us [at WSIA Underwriting Boot Camp] has been a tremendous opportunity to meet fellow coworkers in the industry.” **– MATT NICHOLSON GENESEE GENERAL**

“The case studies helped in me in a way that they made me look at things that I wouldn’t have looked at before. I’ve talked to people I wouldn’t have had the opportunity to meet if I had never attended.” **– ALISSA YOUNG AMWINS ACCESS**

“The biggest takeaways are the people and the networking. Getting to know them and have those networks across the country is valuable. I strongly recommend WSIA Underwriting Boot Camp. It’s a way to network, learn and broaden your horizons in the insurance industry.” **– KENNY OGDEN IFG COMPANIES**

“Networking has been great at WSIA Underwriting Boot Camp, I’ve been in underwriting for four months, and I’ve already met other property underwriters and brokers that I hope to have lasting relationships with. Hopefully this is a good start for my career.” **– KELLY SUTTON JAMES RIVER INSURANCE COMPANY**

“At the WSIA Underwriting Boot Camp, it’s been surprising that underwriters around the country deal with the same issues and that we’re all in this together. [The program] is beneficial for networking. It helps you work on your personal skills and speaking, being comfortable with people you have never met before. Being so young, it was eye opening and amazing to be able to network with people. You grow into your own skin and meet people who you may never have met over the course of your work experience.” **– ANNA MIKOLAS CRC**

“Be very ready when you attend WSIA Underwriting Boot Camp to learn and to be involved. Be ready to talk. If you’re wrong, that’s okay. If you are here to grow, this will be an amazing time for you.” **– CHARLOTTE MASON iSURITY SPECIAL RISK**
